

## Shopping volunteer opportunity

The Digital Marketplace is the cornerstone of our program. We empower families to shop at no-cost for the birthday gifts they want to give their children.

The Digital Marketplace is located on our website where families access it using a unique ID code.

On the back end, a lot happens!

Once a family's order is submission is received by Birthday Connections, volunteer shoppers go into action fulfilling the requests by either ordering the product through online shopping sites or local vendor sites.

We work in Airtable, a relational database that is user friendly. Training provided

Must be 18+

Background check is required, and volunteers are responsible for the cost

Must be technology savvy

Must have access to computer and monitor.

All work is remote

Attention to detail
